THURSDAY, APRIL 26, 1866.

On the second page will be found a pretty full abstract of the proposed changes in the Internal Tax Law.

Wm. Hopps is now having a second trial for the murder of his wife, alleged to have been done four years ago.

The republicans of Washington county have started the political canvass by the organization of a Young Men's Geary Club.

Congress refuses to modify the Test Oath; being of the opinion that President Johnson once was, that traitors ought to take back seats.

On the 23d inst., at Milwaukie, a man was arrested in the act of stealing mail-bags from the postoffice wagon. He had been at it a number of days.

It attracts the attention of the New York press that the Wade Hampton appointed Postmaster of Pittsburgh is a relative of the rebel Wade Hampton of South Carolina.

A cotton broker, D. A. Clark, of St. Louis, was arrested at Cincinnati on the 23d inst., charged with absconding with $40,000 belonging to two St. Louis houses. He gave bail.

Ex-Gov. A. W. Randall is being over hauled by the Wisconsin papers. The Milwaukie *Sentinel* says he was always given to intriguing, and that a residence of three years in Washington has utterly demoralized his political principles.

After the Connecticut election Mr. Montgomery Blair declared the mistake made in that State would not be repeated in Pennsylvania; that the office-holders would be made to take sides against the republicans. That is why the Presidential guillotine is in operation.

The Fenian Raid has ended. Not more than sixty men were concerned in it. The inference seems well taken that money had ceased to be collected rapidly enough from poor servant girls and the like to suit the wishes of the managers, and this flare-up was planned simply to quicken the inflow of money.

The Memphis *Avalanche* is after the Union men of that city in this fashion: "Small pox is not written over the door of Wolcott, but Radicalism—a disease still more fatal and loathsome—is raging within. There are a few other pest houses in this city, which we will, in a few days, publish and advise our readers to shun."

The Washington, (Pa.) *Reporter and Tribune*, speaking of the removal of Mr. Murdoch, says:

"The axe has evidently been put into the hands of Senator Cowan for this State, but let him remember that however lustily he may swing it, the fixed purpose of the loyal people that traitors shall be punished and treason made odious will remain unshaken."

A bill was before the Legislature at its last session, making 7 per cent. the legal rate of interest in Pennsylvania. This bill was at first defeated in the House by a small majority, but afterwards the vote was reconsidered, and the bill passed. The measure, however, failed in the Senate, as did also a proposition allowing Banks to charge 7 per cent. interest on discounts. The legal rate of interest, therefore, remains at 6 per cent. as it always has been.

The Mobile *Register* puts at the head of its columns the name of the rebel Commander-in-Chief, Robert E. Lee, as a candidate for President of the United States in the canvass of 1868, and declares there is a concerted organization now in progress to elect "the model hero of the Confederacy" as "the State Rights democratic candidate." The idea is well conceived. General Lee would get more Northern democratic votes than any other man except Jefferson Davis.

THE CASE OF JEFF. DAVIS.

Washington, April 25.—A rumor is current around the Capitol that the Committee on Reconstruction at their meeting to-day failed to agree upon a report, there being a wide disagreement among the members. An effort will however be made to reconcile conflicting views.

The superintendents of the various Insane Asylumns of the country are now holding a conference in Washington; this afternoon they in a body called on the President and were severally introduced to him.

The President has approved the joint resolution appointing the following named persons managers of the National Asylum for Disabled Volunteer Soldiers, under the provisions and conditions of the third section of the act approved March 3, 1865. Richard J. Oglesby, of Illinois, Benj. F. Butler, of Massachusetts, and Frederick Smith, of New Hampshire, of the first class, to serve six years; Lewis B. Gurckel, of Ohio, Jay Cook, of Pennsylvania, and P. Joseph Esterhaus, of the second class, to serve four years; John H. Martindale of New York, Horatio G. Stebbenof of California, and Gen. H. Walker, of Mississippi, of the third class, to serve two years.

The President has also approved of the joint resolution that in addition to the thanks heretofore directed by joint resolution to Major Gen. George G. Meade, Major Gen. Oliver O. Howard, and to the officers and soldiers of the Army of the Potomac for gallant and heroic valor at Gettysburg, who repulsed, defeated and drove back the veteran army of the rebellion, the gratitude of the American people, and the thanks of their representatives in Congress are due, and are hereby tendered, to Maj. Gen. W. S. Hancock for his gallant, meritorious, and conspicuous share in that great and decisive engagement.

The payment of the May interest on the gold bearing coupons known as the five-twenties, will not be anticipated, but will be paid on the 1st of May, the period at which it falls due. Twenty million three hundred thousand dollars is about the amount to be paid.

The War Department has just issued an order relating to the graves of United States soldiers, as follows: "All persons engaged in the cultivation of land, who may have the graves of United States soldiers located upon their lands, are hereby forbiddeu to mutilate or obliterate the traces of such graves by plowing, or otherwise to disturb the headboards, placed to mark them. All officers on duty as Provost Marshals, Post Commanders, or otherwise connected with the military service, are instructed to send information to the locality and condition of such graves, and of any breach of this order, to the Quartermaster General.

Washington, April 24.—It has been stated that the President has instructed the Attorney General of the United States to prepare for the arraignment of Jeff. Davis before the United States Circuit Court of Virginia, on a charge of treason. This is a mistake. No such instructions have been given, but there has been frequent consultations with eminent legal gentlemen affecting Jeff. Davis, and other parties implicated in crimes against the United States in connection with the late rebellion, and looking to their trial.

The *Commercial's* special says: It is reported that the President has formally requested Chief Justice Chase to try Jefferson Davis for treason at the May term of the United States Circuit Court, at Norfolk, Va., and that Mr. Chase declines, unless Congress, by special legislation, shall restore the power of the Court.

The Committee on Ways and Means have compromised the difficulties on their Revenue bill, and will report to-day.

Wade Hampton, the new postmaster at Pittsburgh, was nominated at the instance of Senator Cowan. Mr. Von Bonhorst had made himself obnoxious by disrespectful personal language about the President.

PROPOSED NEW LOAN.

English Contributions to Destitute Freedmen.

AMENDED BANKRUPT BILL.

The Congressional Recess.

New York, April 25.—The Secretary of the Treasury is considering the proposition of putting a five per cent. loan on the market, as a means of retiring our rapidly maturing obligations. Such has been the successful arrangement of our finances, and the faith of the American people in the National securities, that such a loan is deemed warranted and is thought to promise success by many of the best financiers of the country. The Secretary has all the requisite legal authority, and it is understood to be only the question of expediency which now claims his consideration.

General Howard, to-day, received from Sir Morton Peto and Arthur Kinnaird, M. P., the English capitalists, who recently visited this country, a contribution of fifty pounds in gold, which they require to be applied for the relief of the destitute and suffering freedmen of the Southern States.

Col. Cole, of Ohio, who has been on the staff of General Butler, has been ordered to visit Texas to investigate and report on the management of the Freedmen's Bureau there.

By an order issued by the War Department to-day a number of claim agents in Washington and New York were debarred from practice in the Department for the period of three years. The names of these agents are withheld for prudential reasons.

The *Tribune's* special says: The amended bankrupt bill is ready to be reported to the House whenever an opportunity offers. Its principal alterations are in rendering its practical execution less cumbersome and expensive. It is thought that the changes made will so far obviate its difficulties as to insure its passage.

The Government offers for sale the Military Railroad in Texas, running from Brazos Santiago to the Rio Grande. Purchasers will be required to complete it, and operate it on the same rates as those charged by the New York Central.

Speaker Colfax gave it as his opinion to-day, that Congress could not take its recess before the first of July.

FEARS OF CHOLERA IN NEW YORK.

Testimony Concerning Nitro-Glycerine.

New York, April 25.—The Board of Health has drawn up a proclamation of peril to the public health, which the Governor has endorsed and signed. It sets forth in a series of resolutions that in the judgment of the Board, there is great and imminent peril to the public health, and provides for cleansing and disinfecting the city, and for the removal, treatment and care of those attacked by cholera or contagious diseases and generally to enforce the laws pertaining to health and to incur debts for the purpose.

In the examination of Otto Burstenbinder to-day, the evidence has been given in regard to the nitro-glycerine to Wells, Fargo & Co., California Express, and Alban B. Noble, the inventor, was called for the defense. The properties of the oil are, first, it is a liquid; second, it has the power, that, if you set fire to it it does not explode; fourth, if confined and heated to 360 degrees, it explodes; fifth, it has more concentration of power. Some of the witnesses are trying to investigate the effect of the oil when mixed with sawdust; my impression is that this mixture will prove more dangerous than the oil itself. We are investigating now.

Mr. Noble stated that he was the inventor of the practical adaptation of nitro-glycerine to blasting purposes. Nitro-glycerine is only explosive under certain conditions, as is the case with many other substances not considered explosive. Nitro-glycerine is not at all an inflammable substance, after it fire is set to it, it burns with a brilliant flame like turpentine or spirits, but goes out when the match is withdrawn. It does not explode by the mere application of fire. Its use in blasting is only effected by the concussion of blows, as in

"A STATESMAN WANTED."

A popular and widely disseminated misapprehension fixes the Golden Age of the Human Race in the dim obscurity of high antiquity. People turn, almost as by instinct, to the Past, and bow reverently to impalpable shadows, believing them to to be veritable giants, not only in physical stature, but in intellectual endowments and the graces of moral perfection. Critical explorations dispel these illusions. The present age is, in every particular, the best and wisest the sun has shone upon. As the careful historian travels back into the Past, he feels he is receding into mental and moral darkness, until at last he finds himself surrounded by "gorgons and chimeras dire."

It is part and parcel of this fallacy which leads many men in this country to look back to the era of the Revolution as furnishing the highest known examples of patriotic devotion, of sagacious statesmanship, of legal erudition, and of transparent unselfishness. Nothing serves better to correct these erroneous estimates than to go back to old documents and newspapers and learn how these men estimated each other. JEFFERSON, while holding the highest place in the Cabinet of WASHINGTON, allowed himself to speak and write of that President with more freedom and severity than WADE or STEVENS have exercised towards President JOHNSON. His incriminations of WASHINGTON, though not precisely of the same kind, were as fierce as any the radicals have indulged towards the present incumbent of the presidential chair. Nor did JEFFERSON get off on easier terms. He was accused of almost everything except being a christian and a decent man. FRANKLIN shared the same fate; and, indeed, if any body will take the pains to look over the manuscripts in the Franklin Library in Philadelphia, he will doubtless be convinced that however colossal and beauteous the figure of the renowned philosopher may have been, it was part clay, as well as part gold. Nor are these exceptional cases. The men of 1776, as a body, were neither wiser nor truer than the men of 1866. The statesmen who piloted the United States through the perils of the rebellion, surmounting dangers at home and avoiding difficulties abroad, are the peers of any equal number ever vouchsafed to any nation, in one era, in the whole tide of time. The Generals who led the armies of the Union, if possibly surpassed by three or four grand and solitary examples, standing as monuments along the shores of history, are not overtopped, if equalled, by any cluster of heroes adorning any age or country. Even those immortal lieutenants who gave lustre to the camp and court of the great NAPOLEON are here overmatched. Only a great people could breed such men. And hence that marvellous spectacle, at which the world stood astonished, when the loyal people of the United States, unheeding all the suggestions of timidity, all the counsels of selfishness, all the promptings of a narrow prudence, laid their properties and their own bodies on the altar of sacrifice.

That each of the members of the present Congress is pre-eminent for wisdom, and purity, and patriotism, no one pretends. But that deliberative assemblies, of equal numbers, in any country or age, ever combined more of those qualities, we do not believe. When the passions engendered by present conflicts shall have passed away; when all false weights shall have been excluded from the scales on which events now current must be weighed; when the questions that now agitate and divide our people shall have received the judgment of posterity; the present Congress will be ranked chief of the illustrious assemblies that have conserved order, helped progress, and resisted an inflow of the swelling tide of old abuses.

It is easy to be captious. It is not difficult for presumptuous men, who have no knowledge of what statesmanship consists in, and who comprehend not at all how the destinies of great nations are slowly and laboriously extricated from impending perils and molded into conformity to Truth and Justice, to impugn and heap contumelies on the profoundest wisdom. Hence, it has happened that not an individual name, nor the name of a collective body, stands to-day, in the annals of the human race, emblazoned with peculiar lustre, and honored with the worship of grateful millions but was long blackened and defamed by conservative malice and stupidity.

THE ELEVENTH DISTRICT.

MR. JOSIAH P. HETRICK, editor of the Easton *Journal*, has been nominated for Collector of Internal Revenue in the Eleventh District of Pennsylvania, in place of Mr. E. T. FOSTER, resigned. The retiring Collector had no claims whatever to the place when appointed; and has never given satisfaction either to the Treasury Department or the people of the district. His conduct has provoked two or three investigations. In consequence of the disclosures made at the last scrutiny, he resigned.

We do not see Mr. HETRICK's paper; and do not know whether he stands by the President, or by Congress, or by neither. But we know he is an honest man; was a Whig from his outset in political life up to the dissolution of that party; and since 1856 has been a consistent Republican.

Another applicant than Mr. HETRICK was preferred by the Secretary of the Treasury; but, though poor, and dependent on the wages of a clerkship for a livelihood, he would not agree to support the President's policy as a condition of promotion. From this circumstance we judge Mr. HETRICK gave the pledge; but as he is not to supercede a man removed for opinion's sake, we do not see in this a sufficient cause for his rejection by the Senate.

THE removal of Messrs. MURDOCH and VON BORNHORST and the threatened removal of the other national office-holders here, has done more to bind together the Republicans of this city and county than anything else the President could have done. We met quite a number of Republicans yesterday, all of them inclined to side with the President's policy of Reconstruction, but all of them fierce in denouncing these removals. The removal of faithful officers with whom not a fault could be found, to make room for political trimmers and adventurers is regarded by all with indignation and resented as a public affront.

A DELUSION DISPELLED.

An impression has long prevailed in circles somewhat removed from the most active participation in the management of parties, that politicians are influenced more than other men by considerations of personal interest. What is now transpiring must dispel this delusion from observant minds. At no former period were there anything like so many offices under the National Government affording large remuneration, as at the present moment. The system of Internal Revenue has compelled the creation of many valuable places. The incumbents of these appointments, as of most others, were taken generally from working members in the Republican ranks. They may be accepted as a fair average, in point of integrity, of the men that party, left to its normal action, would be likely to promote.

For three months past the President has been endeavoring to loosen the attachment of these men to certain cardinal principles. He has insidiously appealed to their love of distinction, to their cupidity, and, in many cases, to their necessities. He has sought to win their adhesion by tenders of continuance in power. He has threatened such as are poor with the taking away of their means of support. How true these men have been to their convictions of right, is shown by the fact that the President is constrained, in order to gain his ends, to enter upon wholesale proscriptions. Not being able to bend the office-holding class to his purposes, either by threats or blandishments, he has commenced turning them out. We venture the declaration that if the federal offices had been filled by persons drawn entirely from other classes than active politicians a larger measure of integrity would not have been evinced; we doubt if as large a measure.

Of course the President will find men enough to take the vacated places, and on the conditions he exacts. Some of the new appointees will be good men; for it is not denied that some men of sense, virtue and loyalty accept the President's Policy. But the bulk of the new appointments will be made from men of a less grade of integrity than those displaced. Most of them will fall to the lot of bummers, who do not in reality belong to any political party, but march with that one which promises the best opportunity for securing plunder.

WHY!

We announced yesterday that all the Federal office-holders in the 22d district were soon to be removed. We might have added that Mr. WADE HAMPTON had been nominated for Postmaster of Pittsburgh in place of Mr. VON BONNHORST, removed.

For what is Mr. VON BONNHORST turned out? Not for incompetency. Not because he has failed to give perfect satisfaction, so far as relates to the performance of his official duties, both to the government and the people. Less than three months ago the President nominated him for a second term, and the Senate unanimously concurred. Even Mr. COWAN did not object. What offence has Mr. VON BONNHORST given since? We venture to affirm that no man has heard him speak disrespectfully of the President or his Policy. For our part, we do not know whether his sympathies have been with the President or with Congress. No interchange of views on that point passed between us. We have reason to believe that with others he has been similarly reticent.

We ask again—Why is he turned out? There is but one answer. He has persisted in treating all departments of the Government with equal respect. He has not joined in defaming and abusing Congress. This is displeasing to the President and his crowd. It does not chime in with his policy. If Mr. VON BONNHORST had imitated the grossness and indecency of the President's harangues; had denounced the republican majorities in the Senate and House of Representatives as cabals of disunionists; had coarsely jeered SUMNER, WADE, STEVENS and WILLIAMS as traitors, upon whose necks the heels of Executive power ought to set with crushing weight; his course would have been held eminently proper, and he would have been retained in office.

A CORRESPONDENT in yesterday's paper, whose quotation we overlooked, quotes Mr. Stevens as telegraphing to the Governor of New Jersey—"Hurry up your election—if you cannot send a Radical send a Copperhead."

Our correspondent probably quotes from his recollections after reading the *Commercial*. Mr. Stevens telegraphed—not to the Governor of New Jersey—but to Mr. Scovill, "By all means hurry up your election. Give us no Conservative. A radical man like yourself or nothing. A Copperhead is better than a twaddler." This is the correct version of that dispatch, and it differs so materially from the representations of it given in the *Commercial* and the other Johnson papers that it is worth while to set the matter right.

Internal Revenue—Reduction of Taxation Recommended—The Changes Proposed—The Proposed List of Free Goods.

The present condition of the public finances is such as to warrant, in the opinion of the Committee, a reduction of the burden of Internal taxation now borne by the country to the extent of about $50,000,000. The Committee, therefore, after mature deliberation, have agreed to embody in the bill they will recommend, the following changes of rates and exemptions. A large part of the loss of income resulting to the Government from these modifications will be made up by an increase of the duties on certain sources of revenue herewith mentioned:

CHANGES IN THE RATES OF TAXATION.

The tax on gross receipts of Express Companies increased from 3 to 5 per cent.

The tax on Candles reduced to 3 per cent.

On Clothing of all kinds reduced, except that of woven and felting material, to 1 per cent.

On Boots and Shoes from 6 to 2 per cent.

On Cotton the duty is increased from 2 to 5 cents per pound.

On Ground Coffee and preparations of the same kind, a stamp duty of 1 cent per pound will be substituted for the present tax.

On Pickles, Preserved Fruits, Vegetables, Meats, Fish, &c., a stamp duty of 2 cents on each quart can will take the place of the present tax.

On General Manufactures the tax is reduced from 6 to 5 per cent.

On Salt the tax will hereafter be 3 cents per 100 pounds.

On Incomes, instead of the present tax, there will hereafter be a uniform of 5 per cent. on all over $1,000, not deducting rents.

On Brokers' Sales of merchandise, produce, or other goods, a tax is proposed of one-hundreth of one per cent. instead of the present tax of one-twentieth of one per cent.

On Brokers' Sales or Contracts for the sale of gold and silver, bullion and coin, the tax proposed is one hundreth of one per cent., instead of the present tax of one tenth of one per cent.

THE FREE LIST.

In addition to the above recommendations of a reduction of taxation, it is understood that the Committee have agreed to advise that the entire tax on the following articles of production and raw materials be removed. GENERAL NEWS.

THE EXECUTIVE GAS WELL.—This celebrated well has been spouting again. Twice during the past week there have been vigorous discharges of the same memphitic gas which has for some time assailed the nostrils of the people. No sharp of oil. The well is situated on the Confederate Flats, an unpromising locality, but at first there was a surface show of oil. Having reached the Union party stratum some few drops came up, and a superficial observation of it gave promise of its being of the right quality to lubricate the government machinery.—*Brie Dispatch.*

PRESIDENTIAL NOMINATIONS.—The President has nominated to the Senate A. B. Sloan, a tinker, civilian, to be Collector of the First Internal Revenue District of Pennsylvania, vice Colonel J. H. Taggart, a brave soldier of the late war, removed. *Per contra*, General Samuel F. Carey, the temperance lecturer, has been appointed Collector of the Second Ohio District, vice R. M. S. Taylor, removed. Mr. Taylor was supported by the Ohio delegation; General Carey by his brother-in-law Stilwell, of the Executive Committee of the Washington Johnson Club.

MR. SPRAGUE, of Rhode Island, is described, in a Washington letter, as "decidedly the dandy Senator. He looks exceedingly young from the galleries—a mere boy, and a handsome boy, too. His thick brown hair, where nearly all the other heads are bald or gray, his slight figure, his delicate features, and handsome mustache, make him appear ten years younger than he really is. He is very neat in his dress, wearing various very handsome suits, and not appearing to live in the same clothes as many of the Senators do. Mr. Sprague makes no attempt at eloquence."

ENGLISHMEN IN WASHINGTON.—The Marquis of Lorne, a son of the Duke of Argyle; the Hon. Arthur Strutt, a son of Lord Belper, and Mr. H. Yates Thompson, who has recently offered to establish an American Professorship at one of the European Universities.

VALLANDIGHAM denies that he declared to Thaddeus Stevens that the Democrats would cease to support President Johnson unless he gave them offices. It is true, however, if Vallandigham did not say it.

SPECIAL NOTICES.

☞ **AYER'S PILLS**—Are you Sick, feeble and complaining? Are you out of order with your system deranger and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of those popular Pills. Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate into healthy action the several functions of the body, purify the system from the obstructions and derangements which cause disease anywhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Cases of long standing (caused by similar obstructions and derangement of the natural functions of the body), they are rapidly and many of them surely cured. Scarcely a section or family can be found but some one in it is made miserable by some of these Pills will neglect to employ them when they are suffering from the diseases they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Constipation, Heartburn, Rheumatism, Dropsy, Suppression, or Retention, when taken in large doses.

They are sugar coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

☞ **FEVER AGUE CURE,**

For the speedy cure of *Intermittent Fever, or Fever and Ague Remittent Fever Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fever, originating in the Malarious Districts proceeding to biliary derangement, caused by the Malaria of Autumnal countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, but does not impair the digestion, or injure it in any other manner. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by DR. J. C. AYER & CO., Lowell, Mass., and sold by R. A. FAHNESTOCK & SON & CO., and by all Druggists. mh16-d&wF

☞ **RETROUVEY'S TURKISH RUSSIAN AND HUNGARIAN TONIC FOR THE DRESSING AND RESTORER OF THE AGE; TURKISH BANDOLENIAN.**

This *Renowned Bandolenian Russian Hair Tonic* will do, and for proof we refer you to many ladies who has tried it. If is unsurpassed to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name. FINANCE AND TRADE.

WEDNESDAY, April 25, 1866.

Gold remains about stationary, fluctuating in New York between 126 and 126⅛. It was currently on the street this afternoon that it had advanced to 129 in New York, but the rumor was without foundation in fact.

Government securities continue in request at improving prices, the advance in Europe and the ease of the money market at home all tending to make them desirable investments, temporarily if not permanently. The exemption from taxation on these securities also is not without its effect upon private individuals, especially at this time of year, and it is not improbable that the assessors may discover that the personal property of many who have hitherto been quite heavy taxpayers, is largely represented by these non-taxable bonds.

—The New York *Herald* says that there is every prospect that the prevailing monetary pass will be long continued, as no funding or conversion process which the Treasury can adopt will be likely to disturb the flow of money in the least. If a long five per cent loan is ultimately put upon the market it will be simply a bid for seven-thirty notes, and it will have no chance of success unless Congress previously legislates that the interest on five-twenties is to be reduced to five per cent, with the privilege of conversion, after the option accrues to the government. In this connection we may mention that $515,750,950 of the five-twenty loan is redeemable on the 1st of May next year, and the remainder of the loan on the 1st of November, 1867. The Treasury has wisely given notice that after the 1st of May next the rate of interest on clearing-house certificates will be reduced from five to four per cent, and we trust that this will speedily be followed by a reduction of the rates on the other temporary deposits to the same extent. It is preposterous for the Treasury to hold more than a hundred and twenty millions of this form of loan in time of peace, and while the balance in the New York Sub-Treasury, including coin, is more than ninety-seven and a half millions.

—The following comparative statement shows the average condition of the leading items of the Philadelphia Banks for the past and previous week:

	Last Week.	This week	
Capital	$16,642,150	$16,642,150	
Loans	45,144,669	45,799,754	Inc $655,085
Specie	949,018	936,576	Dec 12,442
Legal-tenders	15,323,799	18,660,513	Inc 336,714
Deposits	34,954,784	35,445,936	Inc 486,691
Circulation	3,743,326	3,761,219	Inc 17,893

The average of the week show an increase in loans of $518,034, recovering nearly the decrease in this item as reported last week. The legal-tenders increased $336,754, and, owing to the increase published last week, gives an aggregate increase of over two million of dollars. The increase in the deposit line, as above, is $486,691, and added to last week's increase gives an aggregate in the two weeks of nearly two millions, seven hundred thousand dollars. There was not much change in the specie line nor in circulation.

—The Merchants National Bank, of Little Rock, Arkansas, and the First National Bank of Helena, Montana Territory, are the only national depositories designated during the fortnight ending April 11, 1866. National currency issued for the week ending April 14, $1,121,880. National currency issued for the week ending April 21, $1,524,600. Total $2,646,480. Amount previously issued, $255,382,566. Total issued to date, $258,029,040.

Excitement in the Chicago Wheat Market.

Prices of No. 1 spring wheat, regular receipts have advanced since one week ago, 20c per bushel. To-day, being entirely devoid of any special excitement, yet there is a moderate business doing in a small way. The little flurry which was created in the breadstuffs market last week has almost subsided, and the same remarks will apply to Grain, yet as stocks are very meagre, prices are firm and well sustained. The arrivals of Potatoes are commencing to fall off, but as the supply is still largely in excess of the demand, there is, as yet, no improvement in prices.

GRAIN—Wheat is scarce and firm but unchanged—Club is quoted at $1,90@1,95, and Winter Red at $2,15@2,20. Oats firm at 55, on track, for prime, and 60 for small lots from store. Sale of 300 bush Spring Barley at 75. Corn is scarce and firm with small sales at 70 @75. Nothing doing in Barley.

FLOUR—Is quiet but firm, with a moderate local demand, and with a light supply, prices are well sustained. We can report small sales from store at $9,50 for "Bartlett;" $9,25 for "Pacific;" $10,50 for "White Star;" $10,50 for "Victoria;" $11,25 for "Star Mills;" $11,25 for "snow Flake;" and $12,50 for "Mad River"—a Fancy brand. Rye Flour is quoted at $5,50@5,75.

PROVISIONS—Bacon is quiet but steady at 15 for Shoulders; 18@15½ for Ribbed Sides; and 20@20½ for Sugar Cured Hams. Lard is held firmly at 18½@19 for prime kettle rendered. Dried Beef is quoted at 24, and Mess Pork at $27,50@28.

POTATOES—Market continues rather dull, but as the receipts are falling off, holders do not seem disposed to make anyfurther concessions. We quote in the Peach Blows in a regular way from store, at $1,10@1,15 per bushel, and $3,15@3,25 per bbl. By the car load, the same may be quoted at $1 per bushel, and $3 per bbl.

SEEDS—Clover Seed is selling in small lots at $5½. There is some inquiry for Timothy, but there is little or none in market—it is held at $3,46. Flaxseed is wanted at $2,42.

BUTTER—Is in fair demand but unchanged—receipts falling off. Good to strictly prime Roll may be quoted at 40@45.

EGGS—In good supply and very dull—sales reported at 19@20.

CHEESE—Goshen Cheese is dull and a fraction lower—sales reported at 23@24.

DRIED FRUIT—Apples steady with sales at 15@15. Peaches scarce and firm—quarters at 17@18, and halves at 20@22.

HAY—Is less active but unchanged. Prime baled sells on arrival at $20 per ton, while loose is selling at scales at $23 to $26, as to quality.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, April 25, 1866.

CRUDE—The market for Crude was moderately active to-day, though the transactions in the aggregate, show a considerable falling off from yesterday, while prices have undergone no quotable change—13 to 13½, bbls returned and in bulk, and 18 to 18½, bbls included. Sales of 900 bbls, in bulk, to arrive, at 13; 1200 do at 13; 800 do at 13¼; 200 at 13½; 200 at 18, bbls included, and 400 at 18. There are no new sales to report in the way of special notice, further than that buyers generally entertain hopes that with large arrivals, which are expected within the next few days, prices will recede. While holders, seem equally confident that the present rates will be maintained, though they are anxious to realize. We shall know more definitely to-day.

REFINED—The market for bonded oil continues dull and depressed, the news by the last steamer from Europe having stagnated the markets in the east, consequently eastern buyers are asking for still further concessions. The best offers for Philadelphia delivery are 53c for April and May; 41 for June; 39 for July; 41 for August; and 45 for September. We have but one sale to record, 500 bbls, for July, at 43. There is done thing in free oil worthy of record. Stocks are light, but comparatively little oil offering, as the great majority of our refiners are sold close up, and in many cases, for thirty and sixty days, and a short run of crude is being collected, the demand being restricted almost entirely to supplying the wants of the retail trade.

ARRIVALS—The arrivals of oil by the Allegheny river, since our last report, were as follows:

Jas. Wilkins	900	W. P. Logan	23
Fisher & Bro	1800	W. P. Logan	23

Finance and Trade in New York.

GOLD AND STOCKS.

NEW YORK, April 25.—Gold closed at 127¾. Mr. Seward's instructions to the Minister at Austria had a tendency to stiffen the market. Money continues easy at unchanged rates. Exchange 108.

The stock market was stronger at the second regular, and open boards, with a fair demand for stocks generally.

NEW YORK, April 21.—Money easy at 5 @ 6 per cent. Sterling Exchange quiet at 107¾@107¾. Gold firmer, opening at 126¾, declining to 126⅜, and closing at 127¼. Government stocks steady. Freights to Liverpool dull. Stocks quiet and steady. The reactions from the last two or three days, but without any important changes in quotations. The large sale of Michigan Southern and Northern Indiana to-day is significant. At the first Board the principal activity was in Cleveland and Toledo, one of the four stocks which the cliques have now to manipulate. The price opened at 100¾, and sold down to 100⅜, closing at 102¾, in advance. Illinois Central continues active, closing at 117¾. The miscellaneous list is dull. New York Central rose ⅝, and exhibits a sharp upward tendency, in spite of the pondering of the fare bill by the Governor. Erie was dull, and closed nearly declined to 73¾, upon the rumors of a further decline in London. Hudson firm, and closed at ⅝c advance. The Government list is rather less active, but still firm. Five Twenties of the second and third issues are ⅛c better; Ten-Forties rose ⅛, closing at 90⅝.

At four o'clock call, the following were the principal sales: Canton Co., 55½; Spruce, 9⅝; New York Central, 99⅛; Erie, 73⅝; Reading, 95; Hudson, 109½; Michigan southern and Northern Indiana, 59¾; Cleveland and Pittsburgh, 84; Cleveland and Toledo, 100; Union Navigation, 10½; Chicago and Rock Island, 103½; Chicago and North Western, 29¾; Chicago and Northwestern preferred, 59.

Petroleum stocks steady, the only feature being the heavy transactions and a decline in United States. Sales—United States, 8,75; Excelsior, 1,50; Crude Creek, 2,00; Phillips, 2,00; Shade River, 50; Allen & Pacific, 3,40; Quartz Hill, 3,25; Bates & Baxter, 2,50; Smith and Parmelee, 8,00.

HARDWARE AND CARPETS.

The Hardware trade is active, and the market firm, and prices sustained.

The Carpet trade continues good, and market prices firm.

The Boot and Shoe trade is moderate with no marked change in prices.

BOATS LEAVING TO-DAY.

RIVER, WEATHER, ETC.

The river is still rising steadily at this point, with eleven feet full in the channel by the pier marks last evening. Telegrams from Oil City report six feet in the channel there, and eight feet at Pithole. The weather yesterday was clear and cool, and very favorable for business at the levee, which we regret to say, continues exceedingly dull.

The Messenger, from Cincinnati, is the only transient arrival we have to record. She had a very good trip, including a large amount of miscellaneous freight, mostly for this city. Capt. Dean reports business excessively dull at Cincinnati, even worse than it is here. The fancy Eagle arrived and departed for Parkersburg, and the Bayard, from the same point, is due here this morning.

The Petrolia and Leclaire left for Oil City last evening, and the Peerless is due here from there to-day. The Allegheny trade, like all others, is very dull, and we are of the opinion that the packets will have considerable difficulty in making both ends meet.

The Messenger has put up a sign for New Orleans. Capt. McCarty, a well-known steamboatman, has purchased the yacht of the same, Jesse Dean, formerly of the Camelia, is in command.

Capt. J. H. Porter, who sold the steamer Miner at St. Louis the other day, and expects to launch the hull of a new boat in a day or two.

The Delaware, Capt. R. W. Harton, will positively take her departure for St. Louis and St. Paul to-day, and passengers and shippers should bear this fact in mind. Messrs. Stevens and Sleeth are her agents.

The Kate Putnam, Capt. Clark, is announced for Cincinnati and Louisville forthwith, as is also the Lorena, Capt. Shuman, from Saint Louis.

The Silver Cloud, which boat sunk near Steubenville on Sunday, has been successfully raised, and she was expected to reach here yesterday afternoon.

The Robt. Moore and Pine Grove were advertised to leave Cincinnati for Pittsburgh on Tuesday, and the Argonaut and New York were loading at St. Louis for Pittsburgh on Monday.

We regret to announce the demise of Mrs. Hannah, wife of Mr. John Sheeden, an old and well-known steamboat engineer. She died rather suddenly, and leaves Mr. S. with seven small children, the youngest of which is a babe.

It is said that the wages of Pittsburgh and Cincinnati pilots have been reduced about $50 per trip, and the Albany *Commercial* has the following on this subject:

It seems that the newspapers are considerably exercised about pilots' wages. All the river papers have been saying that the pilots could make money since the pilots had come down, and one would think from some of their articles, that the pilots were a terrible set of thieves. Now the fact is, that in proportion as pilots wages come down, freights will be reduced that much cheper. The consequence will be each captain will load his boat with cheap freights, ruin the trade, lay up, and call upon the pilots to combine, as they did once before, so they can run their boats to make both ends meet.
